BIKE MAINTENANCE

Saturday 9 January 2021, 10am to 3pm
Teacher: Simon Lindley

Bring your bike in and Simon will service it, and teach you how to do it yourself. Don't throw it out, learn how to fix and maintain it. Learn how to tune gears, adjust brakes, repair punctured tubes, grease bearings and straighten wheels.

BYO Bike.
You must wear enclosed protective shoes in the Tinkerage.

ZIPPERTASTIC

Saturday 17 April, 10am to 3pm
Teacher: Janine Bailey

Reclaim your discarded textiles and zippers and learn about the Japanese philosophy of Mottainai. Bring used textiles back to life and make unique items for you and your home. In this 'zipperastic' workshop you will learn how to reuse and repurpose your textiles into a small bag and a cushion. Master the art of inserting and reusing a zipper while you minimise waste and help save the environment.

BYO A zipper foot that works with your sewing machine, sewing scissors, pins, measuring tape, a cushion insert or stuffing to reuse, and any textile items with zippers that you would like to repurpose.

MOSAIC A POT OR PAVER

Saturday 12 February, 10am to 3pm
Teacher: Anita Larkin

Mosaic is a creative way to re-use tiles and crockery. Using colourful tiles to create your own patterns in a pot or a paver, you will create beautiful functional art for your home and garden.

BYO Safety goggles, gloves, and wear enclosed shoes. Note: Students will need to grout their mosaic on a different day due to the tile adhesive setting time. This can be done at home, or at The Tinkerage on a Friday.

FLOW PAINTING

Saturday 15 May, 10am to 3pm
Teacher: Barbara Burgis

Revamp salvaged items with Flow Painting. Fluid acrylic painting can create mesmerising and modern surface decoration on almost anything! Its easy, and Barbara will show you how.

BYO items to be revamped, or buy some at the Revolve shop. You must wear enclosed protective shoes in the Tinkerage.

FABRIC PRINTING

Saturday 27 March, 10am to 3pm
Teacher: Janine Bailey

Recycle your fabrics by printing onto them with new funky designs. Revamp things such as cushion covers, tote bags, pillowcases, aprons, tea-towels and table cloths. Janine will teach printing images with fabric paints onto cotton and linen in creative ways to upcycle your textile items. Don't throw them out, revamp them!

BYO Cushion covers, tote bags, pillowcases, aprons, tea-towels and table cloths, or some salvaged fabric to print onto. BYO apron, and a small pair of sharp scissors or stanley knife. Note: Students must wear enclosed protective shoes at The Tinkerage.

MENDING IS RIVETING

Saturday 5 June, 10am to 3pm
Teacher: Anita Larkin

We will learn ways of repairing and making things using rivets. Learn how to 'pop rivet' with a rivet gun, as well as make your own rivet joints using metal tubing. Shape, form and connect metals such as baking tins, pewter-ware, and mild steel. Make a mobile, a sculpture or just practice your riveting skills to fix things around the home.

BYO safety glasses, ear protection, protective gloves and must wear enclosed protective shoes. Got anything that needs a rivet repair? Bring it along too.

\$ FREE for residents living in the Shellharbour council area. \$40 fee applies for non-Shellharbour residents.
